Profile

I have worked for over 10 years as an independent tech support specialist with clients in both languages, Spanish and English; I am a freelancer Web Designer and Graphic Designer, my career as an entrepreneur has been driven by my own convictions pushing myself to learn and master the English language as a bridge to learn advanced topics in the fields of my interest.

I've been speaking English for 10+ years.

Experience Interpreter, Spanish - English; Mexico City
2016 - 2017

I worked as an Over-The-Phone interpreter for Customer Service at Language Line Solutions.

Tech Support at Reponomy; México City
2005 - 2015

Owner of a small Tech business at home called Reponomy, our services included Technical Support for Spanish and English speaking clients, Building and Repair of computing equipment, Web Design and Graphic Design services.

Education A high number of courses at Lynda.com as well as Pluralsight.com in Programming and Design - 2010 - Present

CCPM;
Certificado en Diseño Gráfico y Programación - 2005

CENEVAL;
Certificado de Bachillerato - 2004
